

# Staff Benefits:

**Living in Jasper National Park:** The Park offers a huge variety of activities and adventures like world class white-water rafting, local cliff-jumping, fantastic hiking, spectacular views, raging rapids and towering waterfalls. As a group or individually our staff take tours to Mt. Edith Cavell which is an unbelievable glacier fed lake complete with iceberg! We also have opportunity to experience the Columbia Icefield Tour free to all staff. The Jasper Tramway gives our staff free passes for a view from the top and Maligne Lake Tours will often offer our staff a discounted price to tour the Lake and Spirit Island. If you want to try new things you can take a mountain bike tour with our current staff. We can recommend rock climbing, fishing, and hiking companies within the Park boundaries.

**Being in Jasper:** In the town of Jasper (only 5 kilometres away) there is no shortage of international or fine dining. For the budget conscious we have many casual spots for great pizza, beer and a burger and of course “poutine” (melted cheese, gravy, and fries! A Canadian delicacy).

Jasper’s night life is booming and attracts great live entertainment, for young and old...but especially young! We have lots of dancing and a variety of pubs and clubs to suit everyone.

**Living at Patricia Lake:** The business is run like a team! We all work towards one goal, providing the best service for our visitors and the best summer experience for our staff. Our previous staff have said, they live in the best place in Jasper! Since we are a small business that work and play together we tend to make ties that last a lifetime. We have fun!

**Being at Patricia Lake:** Staff housing is free of charge, staff laundry is free, WiFi is free, high speed internet is free. Our Staff are welcome to use all amenities at the lake including basketball, volleyball, biking, hiking, horseshoes, croquet, fishing, swimming, boating, canoeing, kayaking, and horse-backriding just minutes away. New for 2011 is our PADI scuba certification program (course fee \$\$) from one of our return staff members. Our outdoor hot tub is also available for our employees. It is just the right temperature for those mountain evenings after a hard day’s work. And the view of the lake...well it’s a million dollar view!
